About Walking With The Wounded

Established in 2010, Walking With The Wounded supports a pathway for vulnerable veterans to reintegrate back into society and sustain their independence. At the heart of this journey is employment. We recognise the inherent skills of our armed service personnel and want to complement these qualities, as well as provide support to transfer their skills into the civilian workplace. We offer assistance through our programmes to those vulnerable veterans who have been physically, mentally or socially disadvantaged by their service and assist them in sustaining their independence through new sustainable careers outside of the military. This includes providing support to homeless veterans and veterans in the Criminal Justice System, areas which are too often ignored. For more information, please visit www.walkingwiththewounded.org.uk.
